

MagForce AG to host Lunch Symposium on Local Therapies for Malignant Gliomas at the 18th European Congress of Neurosurgery (EANS2018)

Berlin, Germany and Nevada, USA, October 18, 2018 - MagForce AG (Frankfurt, Scale, XETRA: MF6, ISIN: DE000A0HGQF5), a leading medical device company in the field of nanomedicine focused on oncology, is pleased to announce that it will host a scientific lunch symposium titled "Local Therapies for Malignant Gliomas" on Tuesday, October 23, 2018 at the 18th European Congress of Neurosurgery in Brussels, Belgium.

Chaired by Prof. Dr. Walter Stummer, Director of the Department of Neurosurgery at the University Hospital Münster, Germany, the one-hour lunch symposium will feature two key note speeches: After an introduction and overview on topical therapies for the treatment of malignant gliomas by Prof. Dr. Stummer, Prof. Colin Watts, MD PHD, Professor of Neurosurgery and Chair of the Birmingham Brain Cancer Program, University of Birmingham, will be talking about the current understanding of surgery and wafers. The session will end with a report by Prof. Dr. Stummer titled "Hyperthermia and radiotherapy: The NanoPaste experience".

The symposium details are as follows:

Titel:	"Local Therapies for Malignant Gliomas"
Date:	Tuesday, October 23, 2018
Time:	1.15-2.15 p.m. CEST
Location:	Gold Hall, Square-Brussels Convention Centre, Brussels, Belgium
Speakers:	<p>Prof. Dr. Walter Stummer (Chair) University Hospital Münster, Germany <i>Introduction and overview on topical therapies</i></p> <p>Prof. Colin Watts, MD PHD University of Birmingham, UK <i>Surgery and wafers: Current understanding</i></p> <p>Prof. Dr. Walter Stummer University Hospital Münster, Germany <i>Hyperthermia and radiotherapy: The NanoPaste experience</i></p>

Corporate News | 18. October 2018

In addition, MagForce will be represented by a booth (No. 12) at the EANS2018 and will be available for questions regarding its NanoTherm therapy for the treatment of glioblastoma and other brain tumors.

About EANS2018

The European Association of Neurosurgical Societies (EANS) is both an independent federation of European national neurosurgical societies and a fast-developing association of individual neurosurgeons from around the world, aiming to enhance the quality of neurosurgical patient care through training, education and research. A key way in which the association fulfils this objective is by facilitating the exchange of scientific information at the highest level through the organisation of meetings, symposia and educational courses – with the annual congress as its flagship event.

This year's congress will focus on Neurosurgery 2018 - facts, fiction, and future. The pre-congress course as well as the keynote speeches will be organized around the future in the discipline of neurosurgery. Participants will have the opportunity to discuss on eye level topics and improvements in neurosurgery and exchange ideas during interesting sessions.

About MagForce AG and MagForce USA, Inc.

MagForce AG, listed in the Scale segment of the Frankfurt Stock Exchange (MF6, ISIN: DE000A0HGQF5), together with its subsidiary MagForce USA, Inc. is a leading medical device company in the field of nanomedicine focused on oncology. The Group's proprietary NanoTherm[®] therapy enables the targeted treatment of solid tumors through the intratumoral generation of heat via activation of superparamagnetic nanoparticles.

NanoTherm[®], NanoPlan[®], and NanoActivator[®] are components of the therapy and have received EU-wide regulatory approval as medical devices for the treatment of brain tumors. MagForce, NanoTherm, NanoPlan, and NanoActivator are trademarks of MagForce AG in selected countries.
