MagForce AG Installs NanoActivator® at the Kiel University Hospital

Berlin, Germany, December 19, 2013 – MagForce AG (Frankfurt, Xetra: MF6), a medical technology company that focuses on the field of oncology and is a leader in the nanotechnology sector, today announced the installation of the third NanoActivator®. The NanoActivator® was installed as part of the preparations for the new glioblastoma study at the Kiel University Hospital.

About MagForce AG
MagForce AG is a leading medical device company in the field of nanomedicine in oncology, listed in the entry standard (MF6). The Company’s proprietary, NanoTherm® therapy, enables the targeted treatment of solid tumors through the intratumoral generation of heat via activation of superparamagnetic nanoparticles. NanoTherm®, NanoPlan®, and NanoActivator® are components of the therapy and have received EU-wide regulatory approval as medical devices for the treatment of brain tumors. MagForce, NanoTherm®, NanoPlan®, and NanoActivator® are trademarks of MagForce AG in selected countries. For more information, please visit www.magforce.com.
